## **RAVENOL Hand-Reinigungstücher**

**RAVENOL Hand-Reinigungstücher** are antibacterial wet wipes designed for cleaning the hands. The wipes will remove a great deal of dirt from the hands and the caring ingredients they contain will also protect them.

**RAVENOL Hand-Reinigungstücher** neutralise unpleasant odours and their compact packaging makes them ideal for use either on the go or at home. They fit into every glove box and are therefore close to hand at all times for cleaning throughout your journey.

### **Application Notes**

Open the flap, remove the wipe, close the packet. Clean your hands thoroughly with the wipe. In order to avoid the wipes drying out quickly, reclose the packet directly after use.

### **Compositions:**

Fleece material, lotion.

Composition of the impregnating lotion:

demineralised water, <5% nonionic tenside, emulsifier, propylenglycol, isopropyl, preservatives, <5% aromatic substance.

### **Durability:**

3 years from date of manufacture. Date of manufacture (day, month, year) on the packet.

### **Storage:**

Store in the manufacturers packet at a temperature of between + 5°C and + 25°C. Do not keep longer than one month after opening.

### **Safety instructions:**

Do not store in direct sunshine and not near heaters. Keep away from children and animals.
